Dear Sir,

I beg to ask of you
the favor to inform me, if you have ever
had occasion to make a test or assay
of the Black Sands, which usually accom-
pany the washings of gold, from California, &
South America. I think I saw about
4 years ago, a statement made by the
Assayer of the U. S. Mint, saying
that these Black Sands, of which there
brought with the gold from California,
yielded ^{of silver} \$3 per bushell. I should be
extremely obliged, if you will lay
this letter before your Assayer, and
ask him to favour me with
a statement of the produce of those
kind of Sands I speak of.

Very respectfully

Soon after the discovery of gold in California,
the remaining black sands were tested for gold by our
Assayer Mr. C. J. Smith and the results, in connection with
information from that quarter, led him to believe that the
residual sands might be profitably worked. Some
considerable time after, there was another opportunity of
examining the black sands, and they were found to
be worked so close, as to afford no chance of profit.
I believe this is the amount of what we are able to
say in reply to your letter.

Sir
Your letter of 27 Jan was duly received
and as it contained a full explanation of
the transaction of Jan 9. I of course must allow
it, but from recent disclosures I am led to
think that you was deceived in some way
by the defaulting officer. As I stated to you
the gold was of so fine a quality that it
seemed hardly possible for so small a quantity
to contain so large an amount of impurities.
I once before sent the same weight of dust
to be coined, which returned to me \$26.00.
The gold in question was coined in Calcutta
for \$100, which returned to me \$270.00, a deficit
unequaled in my experience or that of any
of my friends. As the metal mentioned
will not amalgamate with gold. I saw no
reason why they would not show when the
gold was poured out. I may be mistaken.
But this is my view of the case.

I see it stated in the papers that the officer before mentioned, allows having committed depredations for 6 months past, and that he has restored peace. Such being the case, I suppose the depredators will come in for their share, as the ore was taken before smelting. I am sorry to trouble you further in this matter, but wish to state the case in accordance with my own convictions of right.

Yours. with Respect

Sir,

Your letter of the 2nd inst has been received, &
I have instituted the inquiries necessary to de-
termine whether any injustice has been done you
in the return for your deposit of \$15. I find that
the absence of platinum was noticed in the
deposit while in the ground, and that to such
an extent that, impracticability of an assay,
without a dissolution of the gold, was evident
by manifest. This was a matter determined
by the Assayer & Master & Miner, with which
the Clerk, to whose misconduct you refer, had
nothing to do, and from which he could not
possibly gain. I regret sincerely that the yield
of your deposit has been so small, but as I
am unable to detect, and do not believe, that
the Mint has been in any way at fault, it
is not possible to repair the deficiency.

U. S. Mint 3 June 1853

I have examined Mr. Yearsley's bill, & believe it in the
main correct, & have therefore signed it. There were
no blank orders issued to him for work, nearly all of
which was ordered before the order-system was introduced.
Notwithstanding my having urged during the past two
years or more the necessity of his supplying weekly bills
for work done, in order that I may compare them with
his acct. presented for settlement, & determine its correctness,
not altho' he has been repeatedly notified that another mason
would be employed, if such vouchers were not presented
weekly, yet he has continually neglected this express in-
junction. For his present bill there is but a single voucher
& that does not tally with his general acct. — I would
therefore respectfully recommend that he be notified

write you an "official" letter, having no
office from which to write it. As soon as I
rec^d your letter of the 27th May I informed
Mr. B. John of the approval of his bond and
also mentioned the fact to Mr. Cress. I think
the approval of Hunt as weigher an unfortunate
one, he is very old and in my judgment entirely
unfit for the place.

On the 30th May the Secy of the

would commence on the 1st inst & authorized me to
put the Clerk on duty as I might require these
services, he also authorized me to submit

Quinn's "mint bill" has produced great consternation
amongst our merchants, Quinn is here, he informs
me that the bill came from the Treas^y Dept. I do
not see the propriety of building up an office at
an outlay of \$7500^m & then by legislation utterly destroy
its capacity for usefulness.

 Philad^a Aug. 3, 1854.

Sir,
 The Treasurer of the Mint has received transfer draft no 80000 requiring the transfer of one million of dollars from the Mint to the Assistant Treasurers Office here. I have to state that it is impracticable to make this transfer except it be done in silver coins.

The following statement shows the condition of the bullion fund belonging to the Government at the Mint:

	Balance of Bullion Account \$6,070,694.86.		
	This amount is now in the following condition		
	Gold.	Silver.	Total.
In Treasury (Coin)	\$144,763.00	\$4,550,217.55	
(Bars)	587,086.19		
	<u>\$481,848.19</u>	<u>\$1,580,217.55</u>	<u>\$2,062,065.74</u>
In hands of Walter B. Fiske	2,115,347.19	587,762.19	2,633,099.38
In hands of Chief Coiner	11,316,501.13	59,027.90	1,375,529.04
		<u>Total as above,</u>	<u>\$6,070,694.86</u>

It will thus be seen that the amount of gold coin on hand is only \$144,763. and therefore entirely insufficient to make the transfer in question. Next week we will have an arrival from California and we shall need all the gold coins we can strike in the interior to pay the deposits which will then be received. If therefore we are to continue our system of prompt payments to depositors - and any interruption in

must be made in order to
be the subject of complaint - it is very evident that the transfer in question
made unless it be in silver coin of which we have on hand
more than one million and a half of dollars.
I may state that it will require great efforts to prepare and
transfer the million in bars to New York in accordance with the suggestion
contained in my letter of the 19th ult, but the payment of a million
in gold coins is entirely impracticable. Under these circumstances I
deem it my duty to suggest to your consideration the propriety of withdrawing
the transfer draft in question, or of permitting the transfer to be made in
silver coin which can readily be done without interfering with the
operations of the bank or the prompt payment of depositors.
I have the honor to be,
With great respect,
Your faithful servant,
James R. Brown

I duly received your favor of the 19th inst. with the accepted bills of Alderman Thompson & of Messrs. Costello & Denning; & to day your favor of the 25th inst. came to hand with the accepted bills of Mr. Leely, & Mr. Salmon; the latter for \$8. as the payment for this last named did not pass through my hands, but was made by you from money transmitted to you direct, from the Treasury Department, it appears to me that you ought to have possession of it, & I therefore return it (in duplicate series).

I return you my thanks, my dear Sir, for your attention to the settlement of these claims, and I avail of this opportunity, as possibly another may not occur,

Yours,

patience with which our enquiries were sub-
mitted to, while in the performance of a duty,
not sought by us, & which, I know, was not
more agreeable to us, than it was unpleasant
to yourselves. In our reports to the Secretary
of the Treasury we endeavored to be strictly
impartial, & if it ever meets your eye I
trust you will find nothing in it to produce
any unpleasant feeling whatever. In our
recommendations, or rather suggestions, for change,
we had nothing more in view than to afford
greater security to the public Treasury, and
from the conversations with yourself & with
Genl. Surgeon & others I feel assured that
all felt the same solicitude to effect this,
that we did.

I have received your favor of the 22nd inst,
 enclosing some Counterfeit Coin purporting to be
 gold, which will be placed in the Cabinet with
 others of a similar character. Therefore send you.
 If these specimens were all procured
 from one manufacturing, as the latter which you
 send me seem to affirm, it would indicate a
 considerable variety, as well as extent, of operating
 since they represent various modes of Counterfeiting,
 as well as, denominations and tides of Coin.
 The foreign, for example, which is the best
 looking, piece in the lot and is somewhat
 likely to deceive, shows about the same shin-
 ing granit as Copper (S. C.) and the color
 of Copper is apparent on entering the filed
 surface. The thickness is sufficient, but the
 weight is only one + two-thirds of the genuine
 Coin. - The half Eagle, purporting to be of
 Dahlonega, has the same general character and
 composition, with a very good gold color,

I may add that with the exception
of the sovereign which might hope, if not
perfectly, none of these specimens ought to
create alarm.

Sir
I wrote you about ten
days since, offering two dollars per
ounce for all the *Andrium*, suitable
for my purposes, could be selected
from the lot in the mint. As dif-
ferent manufacturers select and work
different sizes and shapes it is proba-
ble the selection I should make would
not deteriorate the value of the remain-
der to others. As I have received
no answer to my proposition and
have deferred other plans for a decision
in this. I would be greatly obliged by
an early answer, and in order to judge
of the probable yield I should like to
be informed, what quantity of that metal

A stack of several old, worn, and discolored documents or photographs, showing significant aging and damage. The top document is a dark, textured surface, possibly a photograph or a heavily stained page. Below it, several other documents are visible, showing varying degrees of discoloration and wear. The edges of the documents are frayed and the colors are muted, suggesting they are quite old. The stack is slightly offset, revealing the edges of the pages underneath.

My dear Mr. Barry,
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the claim of Thomas Smith. I have been very busy, but I have now had time to look into the matter. I find that the claim is valid, and I have accordingly drawn on Adams & Co. for the amount of \$100.00. I have also received from them a receipt of the 10th inst. I enclose herewith a copy of this receipt, and also a copy of the statement of the claim. I am, Sir, very respectfully,

Sir,
I have your favor of the 8th inst. In reply I have to state that but one claim of gold mine has been made at the Mount in the name of Thomas Smith. This was made by Adams & Co. on the 14th of March 1864. The weight was 100 lbs, the net value of the claim was \$100.00, which amount was drawn by Adams & Co. on the 12th of June last. If you address Adams & Co., New York, they will probably give you a satisfactory explanation as regards their receipt of 10th ult.

 you will perceive in deposit No 210 -
 of 83.91. a loss of only 2.62 oz. and in
 your assay of 79.17. a loss of 7.60 oz. which
 is about 5 oz too much - and also -
 you see a difference of ^{11.1000} 3¹⁰⁰⁰ in assay -
 as for the treasurer saying there was
 insolence - in the cakes I say no
 it is not so. it was well retorted

Philad. July 11. 1856.

Sir,

I desire to call your attention to the 9th section of Senate bill No. 350, introduced by Dr. Lavin, which passed the Senate and is pending in the House. That section if adopted as it passed the Senate will authorize the Treasurer of the Mount to fix with the approbation of the President the salaries of all the clerks in the Mount savings. It seems to me that such a provision will interfere with the proper control which the Director should exercise, and will in some measure impair the unity of the institution. By law the Treasurer appoints his own clerks, but the fixing of the salaries will leave to the Director a general power which it is highly important he should possess.

There are many reasons which will readily occur to you why this power should be vested in the chief officer of the institution. Besides it is proper that the salaries of the Assistant Assigner and Asst. Mount Refiner should, at the discretion of the Director, subject to the approbation of the President of the United States, be placed on an equal footing with the clerks. At present the salaries of these officers is \$1500. per annum, and that of the clerks \$200.

I beg to recall your attention to the

Section which I had the honor to propose
in my letter of the 13th of May last, which
is as follows: ^{of} assistants and clerks authorized.

is as follows: the assistants and clerks authorized to be employed in the Mint of the United States by the 7th Sect of the Act of Jan. 18. 1837 shall receive such annual salaries as the Directors with the approval of the President may determine; provided that no Assistant nor clerk shall receive more than eighteen hundred dollars per annum.

I earnestly hope that you will
concur with me in ^{the} opinion that the power in
question should remain as it now exists and that
you will recommend a modification of the
5th section of the proposed law accordingly.

The power of the Director was significantly affected, in my opinion, by the Act of March 3, 1861, but if in addition to that the Director is to be deprived of the right to recommend the quantum of salaries to be paid to the blacks, then I greatly fear that the controlling power which ought to be placed in the chief officer of the institution will be but a mere nominal one, so far as relates to the Treasury Department. Heretofore the salaries of all the blacks have been fixed at the maximum (\$1200 per annum) on account of that sum being a moderate

compensation, but if the Authority is
given to increase to \$1500, then a proper
discretion will have to be exercised and
a discrimination made in favor of the
most competent. This authority I respectfully
submit should not be taken from the Librarian.

I have the honor to be,
with great respect,

I have your favor of the 7th inst. enclosing a copy of the communication to you from Mr. Schliemann the President on behalf of the Government to the Mint will be very acceptable and I will cause them, when received to be placed in our Cabinet.

It will be entirely convenient for us to forward a set of our coins to be sent to the Prussian Government.

A full set of our gold coin amounts to \$40,000 of silver 8,000 = \$48,000.

The intrinsic value of the coin sent from Prussia is as follows:

1 double eagle	1 single eagle	\$6.75
1 quarter dollar		2.25
1 single		2.25
2 marks	2 00	1.00

The old pieces might be worth double, as curious rare pieces. which would make new coin

\$10.88
27.68
1.20

Total value \$28.88.

The might regard these as purchased from the appropriation fund (\$200). Annually supplied the following: cabinet, and present in return

- 1 South Cayle. \$20.
- 1 Quarter " 2.50
- 1 Three dollar piece 3.00
- 1 Gold dollar 1.00
- Silver & copper 2.88

\$28.88.

Omitting the Cayle & half Cayle. If however you desire a full set to be presented and authorize the payment of the difference in value from the ordinary fund of the Mint I will cause them to be put up and transmitted to you. Or, if you prefer it, the whole amount might be charged to the ordinary fund.

Washington D.C. July 5th 1864.

Sir,

In visiting the United States Mint at Philadelphia in October last, I observed that the collection of foreign coins connected with that highly interesting establishment, contains only a few specimens of Bremen coin. I, therefore, proposed to my Government, to fill up this void, and it gives me pleasure to transmit, herewith, to you, in the name of the Bremen Senate, a collection of the different coins which have been struck in my country during the last two centuries.

In order to explain those coins specified in the annexed table, I beg leave to add, that the Bremen dollar is equal to 16 groats, 1 groat = 5 Schilling, and that one groat is nearly equal to one cent United States coin. For centuries the pistoles or Louisd'ors coined in other German States have circulated and circulate still to-day in Bremen at the value of 5 Bremen dollars, no discrimination being made as to the fineness and the intrinsic value of those different German gold coins, which varies slightly. Bremen herself has never coined Louisd'ors or pistoles, and the greatest part of the annexed gold and silver coins is now very scarce and only a matter of curiosity, Russian and other German Louisd'ors and the Bremen silver coins struck during the last 16 years being the only usual currency.

It is the wish of my Government that the annexed coins may be deposited in the collection of foreign coins at the U. S. Mint at Philadelphia.

I have the honor to be,

Sir,

very Respectfully,
Your Obedt. Servt.

Dear Sir,

I have received your favor addressed to Col. Dickete & myself, of the 29th Ulls. & of the 1st inst. the first enclosing the Statement prepared by Messrs. Dunning & Corby, and the latter the bills of these Gentlemen for their services.

We hope to be able to submit to the Secretary of the Treasury, during this week, our report on the matters investigated by us, and as soon as this is done, funds will be placed in our hands to cover the expenses incurred in the examination, and we shall then forward a draft to pay the Gentlemen in Philadelphia who kindly assisted us in the business.

I am, dear Sir,

Yours very respectfully

W. W. W.

James R. Snowden Esq.
Director of the Mint
Philadelphia.

To Treasurer of the Mint.
July 10th 1852.

Enclosed find the report of the
Director of the Mint, and the
bills of the Gentlemen who assisted
us in the business.

John James Buchanan
Secretary of the United States
Aug 9. 1859.

Minist of the United States.
Philadelphia, July 1st, 1859.

Dear Sir,

Having deemed it proper to adopt the system of purchasing silver by standard weight on the report of the assayers, and considering it also of importance to introduce a greater formality as to the calculations and payments of these purchases than has heretofore been adopted, I have to request, that in future the following course should be pursued.

The silver to be received and a receipt given as in former cases where an assay was necessary, and a blank assay report filled in for the assayer. The latter officer will report as in the case of a gold deposit, and the value will be calculated at \$1.29.8 per ounce standard, a record of the same being kept. This value will be verified in my office and account will be given for the payment to the seller or his order. These orders will be presented at the Treasury and paid by your order.

In a word, I desire all the forms to be pursued in respect to these silver purchases, that are found expedient in relation to the deposits of gold.

I am, very respectfully,

Wm. Daniel Stewart,
Standard Weigher.

James Ross Snowden,
Director.

Legation of The United States.

London 25 July 1854.

My dear Sir,

I have received your favor
of the 23rd ultimo, with the copies of your last
Annual Report. According to your request, I
transmitted copies to the "London Economist" & the
"London Circular to Bankers," & shall dispose of the
rest of them in a proper manner.

I have been so much occupied with
official duties, as I have ever been at any former
period of my life, since the receipt of your letter I
have, therefore, not found time to devote to the
important ^{but} subject of a further reduction of the value of
our Silver Coin. The pressure of important diplomatic

business is now over for the present, & I shall
inform myself better on this question. Should I
acquire the knowledge of any facts which might be
useful to you, I shall not fail to communicate
them. I intend to give copies of your report to
Mr. Hume & other leading members of Parliament.

There is now in the Mint a gentleman for
whom I have a special regard, - Mr. Daniel S. Jones.
I have known him long & know him well, & have
ever found him to be faithful & honest. He possesses
considerable ability, & is indefatigable in accomplishing
whatever he undertakes. Should you have occasion
to consult him, I should feel much gratified.

Please to remember me, in kindest respects,
to General Patterson, & believe me to be,

Very respectfully,
Yours friend

Sir,

I enclose the certificate of the delay of the
ship, upon the delay of the mineral and the amount
the 12th of June last. whereby it appears that the
metal contained in the ore is not silver but iron.

Owing to the amount of the balance of the deposit
made, the delay had not been able to make an
delay of your ore.

mitted to you on June 29th (last).

Mr. Cooley left the fee claim to be charged
in his bill to be paid by me, but I prefer that you
should decide the amount to be allowed, both to him
and Mr. Dunning; merely remarking that both of
these gentlemen have been assiduous in their labors
to complete the statement with accuracy.

To the Supt of the Mint Phila

Dr Sir I write you
for information concerning the amt
deposited at the Mint by Adams & Co on
account of my brother the Rev. Smith
whose death took place a few days since
at this village by the papers in his possession
it seems he had deposited \$200 each at
the time and at another \$100 - will you
have the kindness to inform me of the exact
amt placed to his credit and as soon
as the necessary papers can be made
out after hearing from him I shall then
know how to act and draw the same to his
at interest for the benefit of those lawfully
entitled to it. Your early attention to the
above will greatly oblige your helper
